

M3 Sprint 1 Deliverables 10 pts.

Last milestone presentations showed great Sprint 0 planning, now it's time to bring your MVPs to life! For Sprint 1, each team must submit a single Word document containing the following sections.

1. Sprint Summary

2. Sprint Goal: What the team aimed to achieve this sprint

3. Scope Overview: Key user stories or backlog items tackled.

- Expected Deliverable: What part of your MVP is now functional.

4. Sprint Board Snapshot

- Include a screenshot or export of your Sprint 1 board (Trello, Jira, GitHub Projects, etc.) showing task statuses (To Do, In Progress, Done). Add a short commentary on progress and task distribution.

5. Working Software Demo

- Provide a link to your deployed app, demo video (≤ 5 min). Upload the video to YouTube and include the link to your submission, make sure it is visible when shared.

6. Code Evidence

- Repository link (GitHub, GitLab, etc.)
- Each team member should have at least one commit merged this sprint.
- Mention branch conventions and summarize merge activity.

7. Test Evidence

- Show test planning and execution activities including types of testing, and why each type was selected
- Test cases table including (Test case ID, Name, descriptions, Test Steps, Expected result, Actual result), Minimum of 10 test cases expected.

8. Sprint Retrospective Notes

Use this format to reflect as a team:

What went well	What practices, tools, or teamwork aspects worked effectively?
What didn't go well	Where did the team face obstacles or inefficiencies?
Improvements for next sprint	Concrete actions for Sprint 2 (with owners or deadlines).

Due: Saturday April 18th, 11:59 PM

9. Team Reflections & Roles

- a. Briefly state each member's current role (Scrum Master, Product Owner, Developer, etc.). Describe collaboration dynamics and any planned adjustments for Sprint 2.

10. Burndown / Progress Chart

- a. Include a simple chart or summary showing story points completed vs. planned.

11. RTM, SRS/DSD/User manual/ and Jira Board updated

12. Demo Expectations, during your live demo:

- a. Show working features
- b. Each member should participate
- c. Reflect briefly on what you learned and what's next
- d. End with your Sprint 2 goal

All items presented during class on Sunday, April 19th .
